

		Monday - December 7				Tuesday - December 8				Wednesday - December 9				Thursday - December 10				
Start	End	Amphitheater II (170 pax capacity)	Amphitheater I (153 pax capacity)	Amphitheater III (125 pax capacity)	Basement Foyer (Permanent posters and commercial exhibitions)	Amphitheater II (170 pax capacity)	Amphitheater I (153 pax capacity)	Amphitheater III (125 pax capacity)	Basement Foyer (Permanent posters and commercial exhibitions)	Amphitheater II (170 pax capacity)	Amphitheater I (153 pax capacity)	Amphitheater III (125 pax capacity)	Basement Foyer (Permanent posters and commercial exhibitions)					
08:00	08:30	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations					
08:30	09:00	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations	Registrations					
09:00	09:30	Opening with AI4SH, I-BEC and OGH				Recap & run of day				Recap & run of day								
09:30	10:00	KN: Ministry of Agriculture - Greece				KN: John Gilliland (Arc Zero)				KN: Sheila Damos (The Southern Lights)								
		KN: Professor George Zalidis (I-BEC, Aristotle University Thessaloniki): "Building Scalable Solutions for Soil Health"				KN: David Robinson (UKCEH): "Pan-European Soil Health Indicators: Progress, Challenges, and Opportunities from the AI4SoilHealth Project"				KN: Sarem Norouzi (Aarhus University): "On the Value of Soil Knowledge in the Era of Data-Driven Soil Modelling"								
10:00	10:30																	
10:30	11:00	KN: Panos Panagos (JRC)				KN: Pietro Baldrighi (Confagricultura ANGA)				KN: Placeholder								
11:00	11:30	Coffee				Coffee				Coffee								
		KN: Eirini Tsirimokou (RHEA): "Why human health starts in the soil?"				KN: Fatemeh Hateffard (Stockholm University): "From Field to Lab: Integrating In-Situ and Laboratory Indicators for Soil Health Assessment"				KN: Mogens Humlekrog Greve (AI4SH project coordinator - Aarhus University): "Setting up the Danish Monitoring Infrastructure"								
11:30	12:00																	
12:00	12:30	Panel discussion 1				Panel discussion 3				Panel discussion 4								
12:30	13:00	Extra panelists				Extra panelists				Extra panelists				Meeting with participants at pickup point (TBC)				
13:00	13:30	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Field Excursion (Ktima Gerovassiliou)				
13:30	14:00	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch					
		Soil mapping from space & Pan-European monitoring	AI, Sensors, Indicators & Digital Technologies	Soil biology & restoration		Agricultural monitoring & Carbon Farming	Global Soil Data & Digital Infrastructure	Soil biodiversity, SOC & Climate		Living labs, Future Soil Health Monitoring & Earth Observation								
		Oral talk: "Deriving spatially explicit tolerable soil loss rates from a global synthesis of soil production rates" by Chris Feeney	Oral talk: "From Field to Cloud: Operational AI Pipelines for Real-Time Soil-Health Measurements" by Jan Bauwens	Oral talk: "Green Earth Program – Earth Observation-Supported Soil Rehabilitation in Drylands using Biological Soil Crusts" by Jessica Friedrichs		Oral talk: "In Situ Soil Health Measurement to Support Regenerative Grazing Practices Across European Living Labs (GroundWork project)" by Justine Luca	Oral talk: "Building African Union Soil Observatory" by Thaisa van der Woude, Paul van Genuchten, Abdul-Wahab Mossa, Chipso, Betony Colman	Oral talk: "A Digital Twin of Ecosystem for the climate-biodiversity nexus: the TerraTwin project. Soil biodiversity and compound flooding, the Belgian Use Case" by Radu Giurgiu, Theodoros Chalazas		Oral talk: "Understanding soil health from hierarchical and thermodynamic perspectives" by Thomas Gumbrecht	Oral talk: "Scores of Visual Evaluation of Soil Structure (VESS) as a Soil Health Indicator Across Contrasting Land Use Types and Soil Textures" by Niklas Schmücker	AI4SH Final event program						
14:00	14:15					Oral talk: "A comparison of model performances and uncertainty of soil remote sensing products calibration for large-scale carbon farming accounting" by Maria Fantappie, Carlos Lozano Fondón	Oral talk: "SHERPA in Action: Soil Health Quantification on European scale across different land cover and use" by Christine Alewell	Oral talk: "Soil Community Attributes as Indicators of Soil Health under Anthropogenic and Environmental Pressures" by Nikolaos Monokrousos		Oral talk: "The Role of the Western Macedonia Living Lab in Soil Health: From Co-Creation to Harmonized Monitoring" by Savvas Karagiorgos	Oral talk: "A comparison of DSM-based SOC stock estimators: Uncertainty reductions and practical insights" by Erik Scharwächter, Ahmad Awad							
14:15	14:30	Oral talk: "Pan-European organic carbon trends in mineral agricultural soils – what do we know?" by Ali Sakhaee	Oral talk: "Fusion of vis-NIR spectroscopy and ISE for online mapping of key soil fertility attributes" by Abdul Mounem Mouazen	Oral talk: "Living Lab for Sustainable HOP Agroecosystem Health Monitoring Through Soil and Plant Microfungal Indicators" by Rasime Demirel			Oral talk: "Shaping NextSoils' Soil Health Services with Stakeholders for the Sentinel Expansion Missions" by Konstantinos Karyotis	Oral talk: "Organic carbon dominates soil porosity across environmental gradients, with OC-clay balance providing secondary structural insight" by Amy Thomas		Oral talk: "From Funding Individual Projects to Building a Territorial Innovation Portfolio: Lessons from 25 Experimental Sites in the French Landes Living Lab" by Wafa Guida	Oral talk: "Linking soil organic matter, bulk density and runoff thresholds under extreme rainfall: a modelling study using GB national soils data" by Maud van Soest							
14:30	14:45	Oral talk: "ASSESSING THE CZECH REPUBLIC'S SOIL HEALTH FROM SPACE" by Asa Gholizadeh	Oral talk: "LIFE MONITOR: AN EMERGING METHOD FOR SOIL MONITORING AND QUALIFICATION" by Peter den Hartog	Oral talk: "Development of a Multifunctional Biopreparation for Sustainable Maize Cultivation" by Justyna Szulc		Oral talk: "Sample Size Requirements for Carbon Farming Projects with Baseline Control Sites" by Erik Scharwächter	Oral talk: "Shaping NextSoils' Soil Health Services with Stakeholders for the Sentinel Expansion Missions" by Konstantinos Karyotis	Oral talk: "Organic carbon dominates soil porosity across environmental gradients, with OC-clay balance providing secondary structural insight" by Amy Thomas		Oral talk: "From Funding Individual Projects to Building a Territorial Innovation Portfolio: Lessons from 25 Experimental Sites in the French Landes Living Lab" by Wafa Guida	Oral talk: "Linking soil organic matter, bulk density and runoff thresholds under extreme rainfall: a modelling study using GB national soils data" by Maud van Soest							
14:45	15:00	Oral talk: "High-Resolution Global Mapping of Peat Depth and Organic Soil Occurrence" by Mustafa Serkan Isik	Oral talk: "Scaling Ecological Management Unit (EMU) Synthesis with a Domain-Specific AI Knowledge Engine" by Travis Nauman	Oral talk: "Evaluation of survival, growth, and phytoremediation potential of Populus trees exposed to hydrocarbon-polluted soils" by Mir Md Abdus Salam		Oral talk: "Agricultural liming: an overlooked climate-smart practice for soil health and carbon farming in Europe" by Louis Hody	Oral talk: "Implications of total and active soil microbiome dynamics for long-term soil health monitoring" by Lur Epelde	Oral talk: "Global Soil Footprint Index: linking SOC change to crop production" by Octavian Chiriac		Oral talk: "Influence of Biochar, Limestone, and Their Combination on Cadmium and Zinc Immobilization in Metal-Contaminated Boreal Soils" by Irini Papageorgiou	Oral talk: "Towards High-Resolution Soil Type Mapping across Europe Using Machine Learning and Earth Observation Data" by Mehmet Furkan Celik							
15:00	15:15	Oral talk: "Satellite-Based Assessment and Neural Network Prediction of Desertification Risk in Mediterranean Agricultural Landscapes" by Adrian Canovas-Rodriguez	Oral talk: "Deriving soil health indicators through multi-tiered assessment methods and AI modeling" by Thomas Gumbrecht	Oral talk: "Food processing residues as circular soil improvers for soil health" by Vera Proskynitopoulou		Oral talk: "Multi-Faceted Biodiversity Integration for a Healthy Soil and Resilient Crop Management - SOILRES" by Davide Cammarano	Oral talk: "Advancing soil monitoring through citizen science-generated data" by Céline Laurent	Oral talk: "A framework for soil health assessment and monitoring across scales" by Lucas Gomes		Oral talk: "Living Labs as engines for soil health governance, monitoring, harmonization, and the road ahead" by Ioannis Varvaris	Oral talk: "Evaluation of New Metrics for the selection of soil health indicators" by Vince Chukwu							
15:15	15:30	Oral talk: "Soil Health Trends Index (SHTI): a pan-EU index quantifying soil health at 30 m resolution for 2000–2025 period" by Tom Hengl	Oral talk: "Empowering Soil Decisions: New AI Assistant Trained on EcoDataCube Layers" by Octavian Chiriac	Oral talk: "Monitoring Hidden Microfungal Biodiversity from Urban Forest to Agricultural Soils" by Rasime Demirel, Merve KESKINOGLU INCE		Oral talk: "Toward a Digital Twin for Agriculture: Soil Health and Carbon Assessment with MODASYS" by Mohammad Ibrahim Khalil	Oral talk: "SoilHive: An Open-Source Platform for Global Soil Data Harmonisation" by Ester Miglio	Oral talk: "Cluster-Informed Soil Spectroscopy for Predicting Soil Health Indicators Across the European Pilot Sites of AI4SoilHealth" by Konstantinos Karyotis		Oral talk: "From Soil Monitoring to Soil Intelligence: Building Governance-Ready AI Systems for Tropical Agricultural Landscapes" by Suzie Haryanti Husain	Oral talk: "Decadal soil organic carbon and nitrogen decline across contrasting arable management in a long-term experiment in Northern France" by Frida Keuper							
15:30	16:00	Coffee	Coffee	Coffee	Coffee	Coffee	Coffee	Coffee	Coffee	Coffee	Coffee	Coffee	Coffee					
16:00	16:15	Panel discussion 2: Soil Health monitoring in South-eastern Europe (I-BEC)	Workshop 1: "Putting innovation to work: the future of AI4SoilHealth tools for European land use and practice" by Madeleine Silberberg	Workshop 2: "From eDNA to Decisions: A Live Demonstration of the SoilTix MySoil Dashboard for Soil Biodiversity Monitoring and MRV" by Julien Winkel		SOB4ES special session:				Panel discussion 5	Oral talk: "A Multi-View Hypergraph Convolutional Network for Joint SOC and Clay Prediction from Sentinel-2 Imagery" by Konstantinos Karyotis, Christos Chadoulos	AI4SH Final event program						
16:15	16:30					1. Oral talk: "Linking Soil Biodiversity, Environmental Constraints and Ecosystem Services across European Landscapes using Earth Observation and Machine Learning" by Maria Marily Christou	2. Oral talk: "Data-driven ecosystem management: assessing soil carbon responses to land use and restoration practices using spectroscopy and digital soil mapping" by Katen Vancampenhout, Sam Ottoy	3. Oral talk (TBC)										
16:30	16:45																	
16:45	17:00																	
17:00	17:15					Dedicated poster and networking session (Basement Foyer)							End of the program				End of the program	
18:00	18:30	Free time								Free time								
18:30	19:00	Free time								Free time								
19:00	19:30	Social dinner								Social dinner AI4SH Partners only								
19:30	20:00																	
20:00	20:30	End of the program	End of the program	End of the program	End of the program
